## recycled PET PEN

Recycling writing implements in different colours and surfaces.

Special colouring possible.

MIX and MATCH option.

One recycling process has already been carried out.

Can be recycled.

Material is very durable and suitable for upcycling.

More positive CO<sub>2</sub> balance. Significantly lower energy consumption in production compared to bio-plastics.

Climate neutral production and finishing.

Certified by Global Recycled Standard.

European production.

A 0,5 liter bottle gives a ballpen housing.

Nominated and awarded several times.

### Sustainably combined with innovative writing technology – The uma ink flow system

Thanks to the innovative further development of the uma RECYCLED PET PEN PRO series, additional types of writing system and promotional options have been created for customers. Along with the classic ballpoint pen, other identical writing systems made from rPET material can be used with the same sustainability benefits.

This means you can now write sustainably with the **uma highlighter:**

### RECYCLED PET PEN PRO LIQEO

Text markers are an essential office item. Thus, the highlighters in 6 writing colours are suitable for office use and as an advertising and communication tool. These models can be optimally used in schools, at training fairs or employee recruitment.

**RECYCLED PET PEN PRO LIQEO**  
0-2255

Experience the enjoyment of sustainable writing with the **uma rollerball:**

### RECYCLED PET PEN PRO Rollerball

A rollerball for a particularly fine line. Available in 8 writing colours in the uma RECYCLED PET PEN PRO series. Signing contracts or for a simply exquisite writing experience result in additional promotional opportunities.

**RECYCLED PET PEN PRO R**  
0-2252 R

Get to the heart of future-oriented developments with the **uma fineliner:**

### RECYCLED PET PEN PRO Fineliner

Emphasise, highlight or technical drawing – the thin streak of a fineliner can be precisely presented in colour format. 12 standard colours are available in the uma RECYCLED PET PEN PRO series.

# RECYCLED PET PEN PRO SI

## RECYCLED PET PEN PRO SI Recycled<sup>2</sup> – the most sustainable combination in a writing instrument!

Recycled PET beverage bottles meet recycled aluminium beverage cans. The uma rPET PRO series is one of the most sustainable writing instrument developments in the promotional industry. A 100 % climate-neutral, European and Global Recycled Standard certified production built up the basics for long-lasting and sustainable writing. The new upcycling idea adds elegant metal applications to the previously pure recycled PET writing instrument series. A recycled aluminium 150ml beverage can is recycled into 10 valuable metal tips that meet a PET housing of a recycled 0.5l PET bottle. So with the uma RECYCLED PET PEN PRO SI you write the most sustainable combination for the environment – just: uma Recycled<sup>2</sup>.

made from ocean-bound plastic

## uma RECYCLED PET PEN PRO ocean

The several small steps together make the big difference. With the idea of producing upcycled writing instruments from recycled PET bottles, uma is already making history. With the new **uma RECYCLED PET PEN PRO ocean** we are taking another step towards climate protection and sustainability.

For the production of the **uma RECYCLED PET PEN PRO ocean** we use collected ocean-bound plastic. In cooperation with Plastic Bank we are able to reduce the plastic waste in the coastlines and oceans and improve general living conditions for humans and animals.

The complete production process is climate-neutral. This not only increases the sustainability level of the product, but also proves your communicated advertising message.

# RECYCLED PET PEN PRO ANTIBACTERIAL

## ANTIBACTERIAL AND ANTIVIRAL

It is made of antibacterial and antiviral plastic containing a special additive which prevents bacteria from colonising the surface of the pen.

## TESTED AND CERTIFIED

Laboratory tests have shown that up to 99.99 % of bacteria and pathogens on the surface of writing instruments are eliminated. Tested according to ISO 21702 (antiviral) and ISO 22196 (antibacterial) effect is guaranteed for the entire life of the writing instrument and thus offers lasting protection.

## MADE IN EUROPE

Short and fast delivery routes enable reliable and short-term production and create an additional contribution to the preservation to the environment.

## CLIMATE NEUTRAL

The writing instruments are produced in Europe and finished climate neutral in the Black Forest. In this way, an additional positive contribution to the environment is made.

## RECYCLED

The barrel is made of 100 % recycled PET bottles. With the use of uma recycled PET PENS we assure you that a recycling process has already been supported and that the writing instruments can be fed into further recycling cycles.

The extraction and processing of the rPET material from 100% recycled PET bottles, as well as the rAL material from 100% recycled aluminium beverage cans takes place in Europe. Both materials are suitable for a durable and sustainable advertisement. Thanks to the European and climate-neutral production, the uma RECYCLED PET PEN ALUMA makes an additional sustainable contribution to the protection of the environment. Due to the special nature of the material (recycled PET material) production-related variations are possible.

0-7200: Metal retractable ballpoint pen with metal tip, metal barrel and metal clip made from recycled aluminium in matt silver, plastic parts made from recycled PET material in opaque glossy black and opaque coloured push-button.

0-7200 T: Metal retractable ballpoint pen with metal tip, metal barrel and metal clip made from recycled aluminium in matt silver, plastic parts made from recycled PET material in opaque clear transparent and opaque coloured push-button.
